RHINE WILL BE OPENED TO ALL NATIONS AND FAMOUS KIEL CANAL NEUTRALIZED

Recommendations Made For Preventing Hun Monopoly of International Stream

COMMISSION TO CONTROL

Question of Fortifications on Canal Not Yet Settled by Experts

(By Associated Press)

Paris, March 12.—Recommendation that the navigation of the Rhine be opened to all nations without discrimination was made in a report to the peace conference today by the commission on international regime of waterways, railways and ports.

It is suggested the Rhine be controlled by a commission similar to the Danube commission.

The status of the Kiel canal has been settled by the commission on the basis of the freedom of its use for all nations for merchant vessels or warships in time of peace.

The canal would continue under German ownership and operation.

The question of the fortification of the canal is left to the decision of military and naval experts.

The report of the commission was not favorable to allowing the claim that special duties be imposed on German vessels.

The report recommended a general conference within a year to deal with all questions pertaining to navigation of international waterways which are regarded as too complex to be settled finally within the limited life of the peace conference.

SHOOTS THREE DURING BATTLE AND KILLS SELF

Chicagoan Barricades Himself in Home and Defies Half-Hundred Police

Uses Last Cartridge in Blowing Own Head Off

(By Associated Press)

Chicago, March 12.—Two policemen and a civilian are in hospitals today with bullet wounds inflicted by a man barricaded in his own house, while the latter is dead with part of his head blown off, having turned his rifle against himself.

For three hours today George On-deck, real estate dealer and expert marksman, held more than half a hundred police at bay. When he was reduced to his last cartridge he shot himself. He is said to have been drinking and the police were after him with a warrant charging cruelty.

Urbana, Ohio, March 12.—(By Associated Press)—Captain Henry M. Pearce, of the Medical Corps, died here as the result of overwork while with the army in France.

ROSENWASERS GIVEN FREEDOM BY THE COURTS

Leather Manufacturers Dismissed Because No Case Made Against Them

(By Associated Press)

New York, March 12.—The government case against Rosenwasser Bros., leather manufacturers, who have been on trial three weeks, charged with conspiracy to defraud the government in army contracts was dismissed today, the Federal judge asserting the prosecution had not proven a conspiracy. Ten other persons were also released in connection with the case.

OWNERSHIP OF CABLES CONTESTED BY AMERICA

Great Britain Makes Effort to Retain Control of German Cables

WOULD HANDICAP THE U. S. Experts Being Pressed to Prevent Virtual Monopoly of Undersea Wires

(By Associated Press)

Paris, March 12.—Realizing the possibility of a virtual monopoly of cable communications by Great Britain should her claim to the German cables be sustained, with the consequent submission of the great foreign business of the United States to alien control in this respect, the American delegates are endeavoring to make a strong presentation before the legal authorities to whom the subject has been referred.

The naval experts who first considered the question were unable to agree and the supreme council upon motion of Secretary of State Lansing, referred to legal experts the question of title involved.

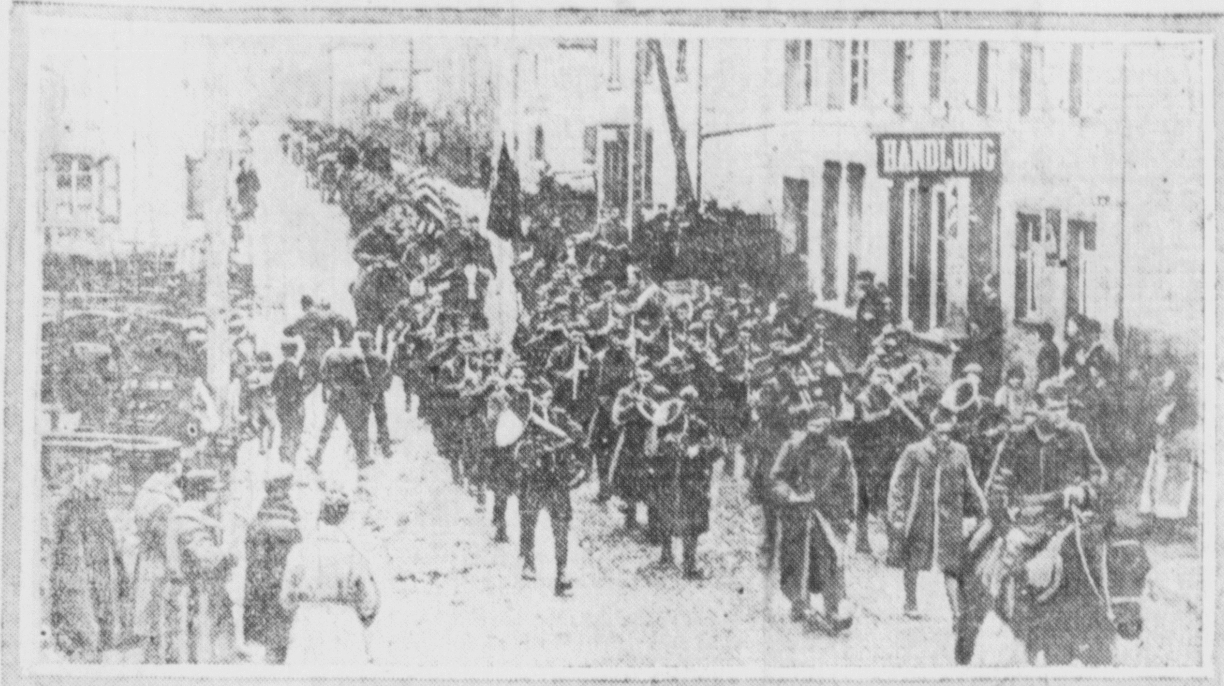

These experts are being pressed by the American delegates for a decision.

The British claim that these cables are prizes of war. They do not intend to allow their return to Germany nor regard them as subject to disposition by the peace conference.

The American delegates contend the cables were unlawfully cut and unlawfully reconnected because the United States was not at war when this was done and had an interest in them as being one of the termini.

SUFFRAGE LOSES IN IOWA
Des Moines, Iowa, March 12.—(By Associated Press)—Woman Suffrage lost in the Iowa Senate Tuesday when that body voted to postpone indefinitely the House bill granting women primary suffrage and then passed the resolution proposing full woman suffrage through constitutional amendment.

Archangel, March 12.—The food situation in northern Russia is causing grave concern.

In the district between Archangel and Onega the people already have eaten the rations fixed for next June.

POLAND CALLS RESERVES.

Paris, March 12.—The Polish National Assembly, according to a Warsaw dispatch, has approved by a unanimous vote a law calling to military service the classes from 1891 to 1896, inclusive. It is expected that the measure will provide Poland with an army of 600,000.

Insists Germany Must be Fed and Given an Opportunity to Sell Her Products

SAYS GERMANY DESERVES TO SUFFER FOR HER SINS

"She Has Paid a Fearful Price and Her Very Structure of Society is Tottering" is Declaration

(By Associated Press)

Paris, March 12.—"We have reached a crisis in the affairs of the world," said Secretary of State Robert Lansing at a banquet given last night by the inter-allied press club in honor of the American peace commission.

Mr. Lansing was emphatic in his statement that the allies must feed Germany and give the Germans opportunity to sell their products in the foreign markets if the danger of Bolshevism was to be avoided.

He painted a vivid picture of conditions in the war zone and pointed out it was not through pity for Germany but to the Allies' own advantage to see that anarchy was prevented in the former German empire.

Mr. Lansing also said: "Germany has suffered bitterly, is suffering bitterly, and Germany is entitled to suffer for what she has done. She has paid a fearful penalty for the crime of plunging the world into four years of blood and fire. Today starvation and want are the portions of the German people."

"Violence and murder stalk through the streets of their great cities. Political institutions, industrial enterprises and the very structure of society are tottering. It is the price of their own evil doing."

"We may be disposed to pity the innocent among the Germans but our pity is almost dried up when we consider what France and other nations have suffered."

SHIPPING STILL TIED UP BY BIG STRIKE

New York, March 12.—(Associated Press)—Private boat owners and their employees remained in deadlock today with little prospect of settlement of the harbor strike.

Meanwhile conditions are becoming serious since the longshoremen refuse to handle work for boat owners against whom the harbor men are striking.

OHIO CO. 167 REACHES PORT

ALL OF 37TH ARE BOARDING SHIPS

(By Associated Press)

Toledo, O., March 12.—Part of the Thirty-seventh Division, Ohio National Guard troops already have sailed from France and the remaining units are being placed aboard transports, according to a cablegram received today from Robert A. French, staff correspondent of the Toledo Blade.

He stated the division had been boarding transports since Monday.

LET IT GO AT THAT.

Washington, March 12.—Because a complaint and investigation by the Federal Trade Commission into alleged unfair practices of the North American Linseed Products Company brought about forfeiture of the concern's charter to the state of West Virginia, the commission decided to take no further action, dismissing its case without prejudice.

(By Associated Press)

Santiago, Chile, March 12.—The Chilean Government has received a report to the effect that the allied war council in Paris has decided the 88 German ships interned in Chile should be delivered to the United States.

The Government is awaiting a demand from the United States for delivery of the vessels.

STORAGE FOODS INCREASE

Washington, March 12.—(By Associated Press)—Foodstuffs in storage March 1 were larger than a year ago as shown by the monthly survey of the Department of Agriculture. Holdings of meats amounted to 1,424,193,903 pounds, an increase of about 139,000,000 pounds, lard 123,017,366 pounds about 58,000,000 pounds more, and butter 25,781,637 pounds, an increase of about 6,300,000 pounds. The 18,588,588 pounds of cheese reported was a decrease of about 30,250,000 pounds.

PART OF 37H ON WAY HOME

(By Associated Press)

Washington, March 12.—Elements of the One Hundred and Forty-seventh Infantry, Thirty-seventh Ohio National Guard Division, have sailed on the transport Harrisonburg; it was learned today at the War Department.

There was no announcement of the units.

This is the first part of the Thirty-seventh to start for home. The remainder of the division is expected to follow rapidly.

NEW MEN NAMED ON THE CIVIL SERVICE BOARD

Officials Said to Have Resigned at Request of President Wilson

(By Associated Press)

Washington, March 12.—Martin A. Morrison of Indiana and George R. Wales, of Vermont, were appointed to the Civil Service Commission today by President Wilson, succeeding John McIlhenny and H. W. Craven, whose resignations were sent to the White House some time ago.

It has been reported that the latter two men resigned at the request of President Wilson.

TAKES A WHACK AT RAY ROBINS

(By Associated Press)

Washington, March 12.—In a letter to Senator Overman, chairman of the committee which has been investigating lawless propaganda, Kathryn Breshkovskaya, the aged Russian revolutionist, today assailed testimony given before the committee by Raymond Robins, former head of the American Red Cross Mission in Russia.

She particularly mentioned his statement regarding the Czecho-Slovak army denying that that army was guilty of atrocities.

GET READY TO TURN 'EM BACK ON MARCH 30

"Daylight Saving" Law
Again Effective on Last
Sunday of This Month to
Last Until Last Sunday in
October.

Within a short time—March 30 to be exact—Washington and Fayette county citizens, to say nothing about a hundred million other Americans, will turn their clocks forward as they did last year, to save 182 hours of daylight before the clocks are turned back on the last Sunday in October.

A statement regarding the "Daylight Saving" has been issued and will be found interesting to those opposed to the measure as well as those favoring it.

"It is quite possible that the figure experts will never be able to fit the exact value to the country of daylight savings. Old Ben Franklin, who was the original thirty-second degree thrift expert, made a fight for the measure something like 135 years ago, but he could not put it over. Had we been saving daylight ever since his time there is no telling what would have happened.

"But the national war garden commission at Washington has some figures which are stupendous and the commission only calculates the victory garden industry in arriving at the value of daylight savings to the country.

"Figures gathered by the commission show that 5,285,000 home food producing plots were planted in 1918. With 26 working days in each of the seven months you have 182 extra hours of time. If only one gardener worked this extra hour of time in each plot it would be seen that 961,870,000 hours of extra time be added to the country's wealth. Since there are 8,760 hours in a year, you find the staggering total of 109,500 years of 24 hour days.

"In a working day of eight hours the real advantage is found by multiplying 109,503 by three, giving 329,409 working or eight-hour days. Importance of this extra time cannot be overestimated in the opinion of Chas. Lathrop Pack, the president of the commission.

"So much for what the daylight saving law will do for increasing the production of food f. o. b. the kitchen door. When anybody stops to figure what the law means to office, shop and other indoor workers, it is doubtful if the value, only estimated even approximately, thousands upon thousands will have opportunity to get out into the daylight upon leaving work. It will mean better health and more "pep" all along the line in the opinion of those who watched closely the working of the law last year.

"The daylight saving law, which congress failed to amend or repeal at the recent session, follows:

"That at 2 o'clock, ante-meridian of the last Sunday in March of each year the standard time of each zone shall be advanced one hour, and at 2 o'clock ante-meridian of the last Sunday in October each year, the standard time of each zone shall, by retarding one hour, be returned to the astronomical time of the degrees of longitude governing each zone, respectively."

FIRST MEETING OF WOMEN'S CLASS

The Women's Physical Culture Class met at the "Y" Tuesday afternoon with a good attendance. The class will meet next on Thursday afternoon.

One class is being formed of the younger girls while another will include the older women.

The "Y" is doing everything to make the movement a success and is fitting out special dressing rooms.

B. & O. WORK TRAIN STATIONED HERE

A work train has been placed on the Wellston division of the B. & O. railroad, and located, for the time being in this city.

The crew will be engaged in putting the road in first class shape. The work will probably cover a period of a month's time, and will consist largely of rebalancing.

LARGE AMOUNT OF PLOWING FINISHED

Because of the unusually open winter, the farmers have been active in breaking ground for the spring planting, and it is believed that at the present time the amount of plowing done in Fayette county is greater than ever before.

Everything indicates that when planting time comes the farmers will be further advanced with their work than usual.

WHEN THE PRESIDENT'S GRANDFATHER CAME TO PREACH IN CHILLICOTHE

The coming of Thomas Woodrow, maternal grandfather of President Wilson, to Ohio to preach is noted but briefly in the records of the Chillicothe Presbytery. At a meeting held at Bloomingburg, Sept. 12, 1837, "Thomas Woodrow, a member of the Congregational Union of England," requested to be received. His case was referred to a committee. Favorable action must have been taken, for at the next meeting of the presbytery, held at Ripley, in 1838, he was accepted and immediately received a call from the church at Chillicothe which being accepted he was installed the first Friday in November of that year William Gage preaching the sermon and H. S. Fullerton giving the charge to the new pastor.

The next entry of interest in the history referring to Rev. Mr. Woodrow is in the records of the presbytery held in Red Oaks in 1847, to the effect that on account of feeble health he had resigned his pastorate with the church at Chillicothe and the relation was dissolved. He recovered his health apparently but did not resume his connection with the church at Chillicothe.

A biographical note included in the history of the presbytery says that after his resignation from the Chillicothe church he served Dr. Hoge's church at Columbus for a while and was received into that presbytery April 17, 1849. Then he preached at Worthington, Tenn., from which charge he was released April 27, 1857. He went at this time to Nicholasville, Ky., remaining in that field until Dec. 16, 1861, when he was again received into the Columbus presbytery. From June 1, 1863 to May 8, 1865, he served at Scioto, and died at his home near Columbus in April, 1877.

It was his church and his old home in Carlisle, England, that President Wilson visited the first Sunday he was in England last December. He was born at Paisley, Scotland, in 1701, educated at Glasgow university, did missionary work in the Orkneys, settled as the pastor of the Independent church of Carlisle, came to America in 1835, locating first at Brockville, Canada. It was from that place that he came to Chillicothe.—J. H. Galbraith in Columbus Evening Dispatch.

The Rev. Wm. Gage referred to is he grandfather of Rev. Wm. Boynton Gage, Presbyterian pastor of the Concord church for 40 years.

WILL PLAY HERE FRIDAY NIGHT

Both the boys' and girls' basketball teams from the local High School will play at Washington C. H. Friday night. The boys are hoping to make a better showing when they face the Fayette aggregation than they did two weeks ago on the local floor. And as for the local girls—they are going with confidence of winning. The Washington girls were badly defeated by the Wilmington girls recently and from all indications they will meet with the same sort of a score Friday night.—Wilmington News.

LOCAL TEAM WILL GO TO BUENA VISTA

Thursday night of this week the Third Degree staff of Confidence Lodge, Knights of Pythias, will go to Buena Vista, where work will be conferred in the third degree in the Castle Hall of Amazon lodge, Knights of Pythias.

A social hour will follow the session, and a thoroughly enjoyable evening is anticipated.

WOULD PUT BAN ON USING FLAG

(By Associated Press)
Albany, N. Y., March 11.—Theatrical acts would be affected if a bill by Assemblyman Peter A. McArdle of Kings, introduced recently in the Legislature should become a law. The measure is designed to make it a misdemeanor to expose to public view during any theatrical performance, excepting for charity, tableaux or in schools and churches, any flag, standard, color shield or ensign of the United States or of the State, worn or draped about the body or a part of the body, or to expose to public view any combination of colors so worn or draped as to represent such flag.

BRYAN FAVORS LEAGUE; OFFERS SOME CHANGES

Former Sect. of State Declares
Plan Originated With His
Treaties and is "Greatest
Step Toward Peace in 1000
Years"

(By Associated Press)

Washington, March 12.—William Jennings Bryan issued a statement last night endorsing the league of nations, but suggesting amendments to the proposed constitution, which, among other things, would preserve specifically the Monroe doctrine, enlarge the proportionate voting power of the United States and make it clear that each member nation might decide for itself whether it would support decrees of the league's general council.

While pointing to imperfections Mr. Bryan urged that they should not be allowed to lead to rejection of the plan, declaring that risks to be run in accepting the league were less than those involved in rejection and returning "to the old ways of blood and slaughter."

Mr. Bryan dictated the statement from his sick bed at the home of friends, where he has been confined for nearly three weeks. He said the league of nations idea, "the greatest step toward peace in 1000 years," was taken from the 30 arbitration treaties negotiated by United States while he was secretary of state. It was not to be expected, he said, that so great an idea would be made perfect in detail in so short a time and added that while President Wilson had "done the best he could," he would be helped by intelligent and friendly criticism from the American public.

The statement in part follows: "The league of nations is the greatest step toward peace in 1000 years. The idea of substituting reason for force in the settlement of international disputes is in itself an epoch-making advance. The constitution of the league as announced provides for three things which constitute in themselves an advantage, the importance of which can scarcely be estimated. Deliberation before war—the investigation of all disputes of their kind and character before hostilities begin. This almost ends war. The idea is taken from the 30 treaties negotiated by the United States with three-quarters of the world. Our nation, therefore, gives to the peace league its greatest piece of machinery. Second, the reduction of armaments will make it impossible for a nation to prepare for war without notifying the world of its intention. Third, the abolition of secret treaties, which will do much to prevent the combinations which lead to war, if the league of nations did nothing more than provide these three things our nation would be justified in supporting it to the utmost.

"It is not to be expected that so great an idea as the league of nations would be made perfect in detail in so short a time. There are defects that should be corrected, and the fullest discussion of proposed amendments should be invited. The newspapers of Great Britain, France and Italy are not backward in the expression of their views as to changes that should be made. Why should the American people be silent. Ours is the nation most influential in the league and most powerful, because most interested. Its people should help by free and frank discussion to perfect the league. The president has done the best he could, but he will be aided by intelligent criticism from those friendly to the idea.

"I venture to point out certain amendments that should, in my judgment, be made in the interest of a stronger and better league. First, the basis of representation is not fair to the United States. A comparison of voting strength will show that while our nation is the most powerful in the combination whether measured by population, wealth or moral influence, it has no larger vote than nations much inferior in population, wealth and influence. This inequality ought, if possible, to be corrected, for justice is the only foundation upon which any institution can rest in permanent security."

NEW SIDEWALKS ARE IN PROSPECT

A number of property owners on Paint street east of the school grounds are contemplating the construction of new concrete sidewalks, this spring and summer, to take the place of the present old brick walk which is in need of attention for a considerable distance.

With the improvement it is possible that the School Board may join the forward movement and lay a new concrete walk on the north side of the school grounds where, under present conditions, the walk during rainy weather and when snow is on the ground is one of the worst in the city.

A little later it is expected that the old brick walk on the south side of the grounds will be placed in something like passable condition or a new concrete walk be constructed.

Mr. Hoover to Quit

According to reports from Paris there is a probability that Herbert C. Hoover will resign his post, as food administrator of the United States and director general of the inter-allied relief organization, early this summer.

Mr. Hoover's retirement from the public service would be a tremendous loss to the world as well as to his own country, unless conditions are much improved at the time his resignation takes place.

He has been one of the big outstanding figures developed by the war. Perhaps no man in the public service has had more difficult and, few indeed, more important duties to perform than the man who has builded such an efficient organization for mobilizing and distributing our food supplies.

Beginning his work early in the war when Belgium was overrun by the Germans and organizing the unfortunate people of that land so that they might be saved from starvation, Mr. Hoover's work grew until now it embraces almost the whole of the civilized world.

The tremendous popularity of his work is due, in large measure, to his ability to remain in the background, so far as publicity is concerned, preferring to let his work and the results achieved be accorded the approval or the censure of the public as they merit, free from any personal popularity, or the reverse, of his own.

Mr. Hoover has avoided rather than courted publicity on his own account and as a result, although the character of his work has been such as to invite the most bitter criticism, he has escaped with less than most of our public servants who have held important posts of service.

The explanation for Mr. Hoover's intention to quit the service may be found in the fact that he sees the end of the present crisis with the conclusion of the peace treaty, the restoration of order in Europe and the planting of the 1919 crop.

There is much encouragement to be taken from that view because Mr. Hoover has proven himself to be a very far-seeing and accurate visioned man.

The world can ill afford to part with Mr. Hoover's services unless conditions grow better.

Whew!

From London to Paris or the other way, if you happen to be traveling in that direction, in the Farman aeroplane is the most up-to-date method of travel now between the capital of France and the capital of England.

The great passenger-carrying ship of the air in its initial flight carried fourteen passengers. The "Goliath" makes the trip, with its passengers, in one hundred and sixty minutes which, compared with six hours and forty-five minutes, the best record by fast boat and train, is "going some."

And only a very short time ago, as history measures off the time, one great source of England's power was in the fact that she was so isolated from the continent of Europe that she could afford to remain aloof from all entangling alliances with continental nations.

Perhaps, too, when the kings of aircraft construction perfect the method of travel via the air route, our own Mr. McAdoo, or some other constructive and financial genius, will lay giant steel tubes under the choppy waters of the channel so that freight may be moved more rapidly and in larger volume.

The last outposts of isolation seem to be falling rapidly. The coming generation will forget that there ever was a time when the world knew great distances.

National Wrecks

Serbia and Roumania, as later and more detailed reports from those more isolated nations among our allies, are received present to the world a history of suffering which rivals, if it does not exceed the horrors through which Belgium passed.

Those sturdy, loyal people of the Balkans have been left by German and Bulgarian invasion, financial, economical and physical wrecks.

The people are poverty-stricken and their health ruined, they are without the means of making their own living, now that the opportunity to do so is presented and, with the means provided they are without the physical strength to carry forward the every day tasks of life.

Money or territory cannot bind up the wounds of these suffering nations.

Time and nature alone can restore them and while those agencies are at work healing or replacing the sick and the murdered humanity can only furnish all possible aid to the suffering.

The selfish whine of the beaten and surly Hun comes with ill grace while the world hears the sad story of wretched suffering which comes from Serbia and Roumania.

POEM FOR TODAY

SOMEWHERE IN WORLD TODAY.

O somewhere in the world today a heart is sighing and forlorn,
And somewhere in the world today a heart is singing with the morn;
And sometime, maybe, in the end, the pity of the one will reach
The need that makes the other sad,
and they will answer each to each
O somewhere in the world today a struggler drops beside the road,
And somewhere in the world today a brother comes and lifts his load;
And sometime, maybe, you and I will know it all and understand,
And life will do more reaching out,
more giving men a helping hand.
O somewhere in the world today a blithe young spirit whistles by
And some where in the world today his whistle stops a plaintive cry;
And sometime, maybe, as we fare with song and sigh we'll all be brave
To share a bit, to help and give as Christ, the holiest giver, gave.

AUSTRALIAN KNEW HUNS WERE LICKED WHEN YANKS CAME

Sydney, Australia, January 15. — (Correspondence of the Associated Press.)—Australians have learned to appreciate the value of the American soldier in the World War, according to the late Lieutenant Cecil Healy, of the Australian Expeditionary Force, an international swimming champion killed last summer in France. Lieutenant Healy, who was one of the best swimmers in the world over the long and middle distance courses, competed at the Olympic games in Stockholm, in a letter to a friend here he said, "Until America ranged herself definitely on our side, I entertained strong misgivings as to what the ultimate issue would be, but when the United States declared war the Teutons' chances of obtaining world domination vanished forever in my estimation. I at once ventured to prophesy amongst my coterie of friends that it would be Yankee brains, Yankee wealth and resources alone that would enable us to stave off defeat."

"To any group of soldiers that I happened to come upon in our camp that were discussing the Yankees, I told that I had made one of a bunch of athletes who left Australia to compete against Americans at the Olympic Games. We were convinced I assured them, that the Yanks were all talk as was supposed. But I explained that after we had had an opportunity of seeing for ourselves what they could do in the way of organization, and had seen evidence of their shrewd and businesslike systems, and observed the fact that they were equipped with everything that brains could suggest and money buy and moreover, had met them as man to man (in most instances receiving a sound trouncing at their hands) we began to regard them highly."

"Ultimately we returned to Australia with the firm impression that the Yanks was about as worthy an adversary as would be met with in any hemisphere." Lieutenant Healy was killed in the Australians' capture of Mont St.

Freemasons Attention!

We APPEAL to every MASON of OHIO to make a DOLLAR GIFT or more to the Fund being raised for the support of the ORPHANS of MASONRY in BELGIUM, FRANCE, ITALY, SERBIA and other allied countries devastated by war. There are thousands of them. In February over 4,000 brethren of Cincinnati and vicinity responded to our appeal for help. Three thousand dollars was sent to the Masonic Orphanage at Paris, France. Five thousand dollars was sent to Orphanages in Italy and Belgium. We need fifty thousand dollars for immediate pressing necessities. We ask each Mason who has not answered our appeal to do so at once. DO IT NOW. THE MONEY WILL BE FORWARDED BY THE MASONIC WAR RELIEF ASSOCIATION, U. S. A.

Meat: Russia and the Allies

Russia crumbled away and failed the Allies largely through lack of food, according to an American eyewitness.

With plentiful reserves and resources virtually untouched, her people starved at home and at the front because there was no adequate organization to place food where it was needed.

Animals on the hoof were shipped thousands of miles to the various fronts, wasting transportation facilities required for other purposes. They arrived shrunken and emaciated, to be killed and dressed amidst filth and confusion behind the lines. Half of those brought from Siberia, it is said, perished on the way; many more were unfit for food.

On the other hand, the American packers turned live stock into meat in large sanitary plants located in the producing sections, and shipped the product under refrigeration so that it reached the trenches in France in perfect condition, without waste.

Says Our Authority:

"Had such facilities for cold storage transportation been available to the Russian supply committee as were placed at the disposal of the quartermaster of the United States by Swift & Company, there might have been a different story concerning Russia's part in the final drama of the war."

A large-scale packing industry would be an asset to Russia, in war or in peace, as it has proved to be to the United States.

The cost of this large scale industry in the form of profits is only a fraction of a cent per pound of meat.

News of Interest to Women

The Mothers' Circle met with Mrs. Elmer Junk, Monday afternoon. After all business had been transacted a very interesting programme was enjoyed.

Mrs. E. F. Todhunter gave a paper on "Building the Perfect Physical Child as the Foundation of Efficiency."

Mrs. J. E. Magly a paper on "Social Education and Responsibility Necessary to Exterminate the White Plague."

Mrs. J. H. Chapman gave two piano numbers, "A Day Dream" and "An Off Shore Breeze" by L. E. Orch.

Miss Mabel Briggs with Mrs. Cora Brown and Miss Edith Belles assisting hostesses, pleasantly entertained the teachers and Officers of the Baptist Sunday School at their regular monthly business meeting, Tuesday evening at the Briggs home on Temple street.

A delicious three course supper was served in attractive cafeteria style to the twenty-five members present.

Potted plants were used in decoration.

Mr. and Mrs. John Case, Mr. and Mrs. C. C. Kneisley, Mr. and Mrs. Burdette Lynch were hosts and hostesses to the Men's Bible Class of the Baptist Church and their families, Monday night.

It was the March meeting, and was held at the hospitable Case home on Dayton avenue, with seventy-five in attendance.

Music, games and refreshments added to the pleasurable sociability of the evening, and Rev. Ferguson, of Piqua who preached at the Baptist Church last Sunday, gave a very interesting talk.

The entertainers lent every effort to making the meeting a success.

An epoch making event in Pythian Sister circles took place Tuesday afternoon and evening in the Pythian Castle, when the Sisters met under the efficient leadership of Mesdames Belle Arbogast, M. E. C., Emma Morris, Rosetta Wilson and Myrtle Flee, the committee for preparing comforts for Devastated France.

Two comforts were completed and ready for delivery before adjourning for an appetizing 2 course 6 o'clock dinner served to the workers by a committee of Brother Knights. After a very pleasant social hour, spiced with wit and humor, Brother Chas. Gardner rose to the duties of a very efficient and humorous toastmaster. Toasts were responded to by a number of those present and at 7:30 the Sisters adjourned to the lodgeroom for transaction of business. Later the staff practiced some very pretty drills under the direction of their captain Miss Emma Wilson.

The Washington Council of the Junior Order of United American Mechanics No. 263 motored to Jeffersonville Tuesday evening and put on work for the Mayflower Council No. 81 at that place. There were seven new candidates, one reinstated.

ment and one by card. The Jeffersonville order proved them selves very hospitable entertainers, and complimented the local order on their work. Mr. Thomas Kislung, captain of the team was in charge. Refreshments were served.

Tuesday night's meeting of the Browning Club closed a successful year—one of the most interesting and progressive in Club annals. There was a large attendance and during the opening business session conducted by the President, Mrs. V. J. Dahl, plans for the next year's study on France were briefly taken up.

Mrs. Dahl announced as Department Chairman for 1919-1920—History Chairman, Mrs. Josephine Kerr, Vice Chairman, Mrs. Harriet Woodward; Literature, Mrs. F. G. Carpenter, Vice, Mrs. Joseph Hidy; Art, Miss Edith Gardner, Vice Miss Minnie Light; Household Economics, Mrs. F. A. White, Vice, Mrs. Carey Persinger; Social and Philanthropy, Mrs. Austin F. Hopkins, Vice, Mrs. Chas. E. Mark.

Mrs. Ada Jones, Chairman, presided during the presentation of the entertaining program by the Social Science and Philanthropy department.

An intensely interesting and well written paper on "Rockefeller as a Philanthropist," was presented by Mrs. Belle Woollard. The writer pronounced the "Oil King" as perhaps the most generous giver of wisely directed gifts in the whole history of philanthropy. He gives his money by the deliberate judgment of his trained advisors and believes that it can be used more wisely while he lives than after he is dead.

In the European war Mr. Rockefeller gave enormous sums to war causes—to the Red Cross work, the feeding of Belgium; to the assistance along medical lines in the antiserum treatments of Dr. Elexis Carrel and along educational lines all over the world.

Mrs. Stella Blackmer contributed a delightful number—a review of Mary Roberts Rinehart's novel of pathos and heart appeal, "The Amazing Interlude"—The Columbus Library gave preference to this novel over all war fiction.

Mrs. Blackmer's review a cutting in the author's language, was masterly, the result of careful study and altogether charming in the sympathy with which the story was told—Mrs. Blackmer's club work is always brilliant and distinctive.

"The Amazing Interlude" is the story of woman's work in the war—a story of a soup kitchen near Ypres, on the Belgian front, in charge of a young girl, Sara Lee Kennedy, from Ohio, with the assistance of a Belgian Captain of the Secret Service named Henri; of Sara Lee's work of first aid bandaging the serving of hot chocolate to wounded men and of Henri's wonderful work as a spy, and finally their romance. The story covers the early years of the war and the struggle of the little Belgium Army to hold the long, thin line of Belgian trenches.

Mrs. L. E. Miller charmingly entertained the Tuesday afternoon Kensington club with a few additional guests.

It was a very pretty party, with the St. Patrick Day idea effectively carried out in decorations and the elaborate luncheon served. Green carnations were the flowers used.

A marriage just announced and of decided interest in both this county and Pickaway county took place Saturday evening at Grace parsonage, when Miss Maude Heistand, the accomplished daughter of Mr. and Mrs. Henry Heistand, of the Devalon road became the bride of Mr. Walter O. Bumgarner, an alert young farmer, of Circleville, son of Mr. and Mrs. Oscar Bumgarner.

The best wishes of a host of friends follows the announcement.

The young couple will make their future home on the New Holland farm recently purchased by the Bum-

garner from Mr. L. F. Thomas, and will occupy the handsome farm residence, with large and beautiful grounds, on the Edge of New Holland.

Mr. and Mrs. William Bishop were given a most delightful surprise at their home on Paint street Tuesday night by their children, Mrs. Jack Stone, Mr. Ellis Bishop, Miss Francis Bishop and Mr. Carl Bishop, of Evansville, Ind., who came home purposely for the affair.

The occasion was the birthday of Mr. and Mrs. Bishop, that of Mr. Bishop coming on Tuesday and his wife's later in this month.

Thirty-six guests assembled finding the honor guests completely surprised and showering them with good wishes. Both are held in high regard by their friends, who hope to join in many future anniversary celebrations.

Mrs. B. E. Kelley added much to the pleasure of the evening in beautiful and artistically rendered piano selections.

St. Patrick's day decorations were prettily used and its color and suggestions carried out in tempting refreshments served.

Washington friends will be interested in learning of the marriage of Mr. Ben Jones and Miss Hattennes Wheeler, in Sidney, Ohio on February the twenty-second.

The groom who is the son of Mr. L. B. Jones, and brother of Miss Mervyle Jones former residents of this city, has just been discharged from Camp Paynefield, West Point, Miss., where he was stationed in the Medical department.

Mr. Jones and his bride will make their home in Akron and take with them the best wishes of friends in this city, the groom's home town.

The regular monthly social session of the Epworth League was held Tuesday night in the M. E. church parlors. Twenty-five new members were added to the roll.

Refreshments were served and the evening was one delightful sociability.

The Loyal Daughters of the Christian Church enjoyed an indoor picnic supper in the class room of the church, Tuesday night. Sixteen members were present.

After the business session in which plans for the month were discussed, the girls attended the Palace theatre to see Dustin Farnum in "A Man in the Open."

Mr. Maurice Hopkins, of Madison Mill who underwent an operation at the Fayette Hospital Tuesday afternoon, performed by Dr. Evan Brock of Columbus, is getting along as well as can be expected.

Mrs. Taynor, mother of Mr. Warner Taynor of Pearl street is critically ill with pneumonia following a severe case of the influenza.

Mrs. Albert McCoy spent Tuesday in Columbus.

Mr. Horace Wilson made a business trip to Columbus Tuesday.

Mr. and Mrs. H. B. Dahl attended the funeral of Mrs. A. S. Hammond in Columbus, Monday.

Mr. and Mrs. J. O. Sparks, who have been living in Dayton for several months are moving their household goods to Mechanicsburg, where Mr. Sparks is employed in a seed house. Mrs. Sparks is making a short visit with her parents, Mr. and Mrs. G. H. Lloyd, Misses Isabel and Jeannette Sparks and other friends in this city before going to her new home Thursday.

Mrs. Charles Rummels had as her guests Tuesday, Mrs. Huffman and daughter, Mrs. Henry Adams, of Sabina.

Mr. Jesse Persinger was a business visitor in Columbus Tuesday.

Hon. Reuben Rankin, of Parretts, spent Monday in Columbus on business.

Mrs. W. H. Barlow, of Sabina was the guest of Mrs. Frank Morris Tuesday.

Mr. Clark McBole, who has held a position in Columbus with the Federal Express Co., has been transferred to Newark, O., and reports at Newark Monday.

Mr. Wallace Wolfe and family, of Trumbull county, have moved to the Wm. Smith farm on the Columbus pike, one mile east of this city.

Mrs. L. F. Thomas of Washington Avenue has been visiting her daughter, Mrs. Wiley Campbell, at Atlanta this week. Mr. Thomas motored over for her Wednesday afternoon.

Mr. R. B. Collier returned to Akron Wednesday after a visit at this city, his former home.

Mr. Chester A. Hall was a business visitor in Seymour, Ind., the past two days.

Mrs. Edmund Smith went to Springfield Tuesday to visit her sister, Mrs. Glenn Arnold, and mother, Mrs. Myers.

Private Roy Bartin has received his discharge and returned from Camp Sherman.

Mrs. S. E. Simmons went to Columbus Wednesday to spend the remainder of the week with her sister, Mrs. P. O. Daughters, while attending the Spring Millinery Openings before resuming her position in the Bybee Millinery Shop.

Carl Bishop who has been at Evansville, Ind., since his discharge from Camp Taylor, Ky., visited his parents, Mr. and Mrs. Will Bishop, a few days this week.

Mr. and Mrs. Charles Engle have received word of the safe arrival of their son, Walter, from overseas service, and that he is now in New Jersey.

Rev. Arthur P. Cherrington was a visitor in Columbus, Tuesday.

Mrs. G. B. Franklin took her young son, Robert Bruce to Columbus Tuesday for a second throat operation and treatment at Grant Hospital. The operation was slight and completed a series of throat treatments. Mrs. Franklin was accompanied by her brother, Mr. Dio Jenkins, and Miss Bess Cleveland.

Mr. and Mrs. Claude Post and daughter, Marjorie, were down from Columbus visiting, Hon. and Mrs. J. D. Post and Mrs. Ada Jones the first of the week.

Mrs. J. J. Flynn of Dayton was a business visitor here today.

Miss Ruth Mowery has resigned her position as Principal of the Centralized School at Mineral Ridge, O., and arrived in this city Wednesday morning to spend a week with Mrs. Ida Baughn and son, Roy before going to the home of her parents, Mr. and Mrs. P. C. Mowery, of near Jeffersonville.

Mr. E. V. Boyd was called to Hillsboro the last of the week by the illness of Mrs. Boyd, who was taken quite ill while visiting relatives there.

Mr. T. H. Craig is attending the Merchants Convention in Columbus today.

BRILLIANT BANQUET ROYAL ARCH MASONS

The Royal Arch Masons banqueted royally at the Masonic Temple Tuesday night in connection with initiation and a session of notable interest.

Six candidates were given the Royal Arch work. They were Cary Phillips, Ray Maddux, of this city, J. G. Albright, E. L. Albright, W. D. Davis and C. G. Foster of Mt. Sterling.

High Priest Walter Jones was competently in charge of the work.

Nearly a hundred Masons were seated at long tables, beautifully decorated, in the banquet hall and served with an eloquent banquet by the women of Royal Chapter No. 23, of Eastern Star.

High Priest Jones expressed to the Eastern Star the order's appreciation of the excellence of the banquet in a complimentary little speech. The social pleasure of the evening reached the high water mark.

GOSPEL MEETINGS

The Gospel Singers, Bros. Schell and Tincher, of Springfield, Ohio, who are singing for the Revival at the Bible School Room on Oakland Avenue, will sing at the Gregg street church Thursday evening and Sunday. Come out and enjoy these spiritual gospel songs and take part in the revival services.

RED CROSS ACTIVITIES

REFUGEE GARMENTS ARE READY TO SEW! HOW MANY CAN YOU MAKE?

With a steady humming that resounds through the long assembling and cutting rooms in the Lake Division warehouse, the high-powered cutting machines are carving out 50,000 refugee garments a week—five sizes of girls' chemises of unbleached muslin, nightgowns for children from two to fourteen years of age, striped outing flannel petticoats in seven sizes and undershirts, large and small.

Every week 70,000 ready-to-sew garments must be shipped to Lake Division chapters—because the need overseas is so great, because National Headquarters has assigned this task to the Lake Division, and because, if the shipping were held up for a few days and the cutting continued, the warehouse would be crowded with high stacks of odd-shaped pieces of cloth.

Though the division as a whole ought to go over the top at a half million, chapters have not had their work parceled out to them. Instead, they have been asked to make their own estimate of what they feel to be their share of the work.

This estimate must be made quickly if the work is to be done in time to help. The Bureau of Chapter Production can ship to chapters on short notice the amount of sewing they have assumed as their responsibility toward these women and children destitute of all the necessities for starting their lives over.

Write to Mrs. F. W. Strickinger, director of the Bureau of Chapter Production, at Division Headquarters, today and tell her what your chapter will do.

"SERVICE" KEYNOTE MISSION SERVICE

At last night's service at St. An
drews Church the thought of "ser
vice" was the idea developed in the
rector's sermon. Taking for his
text Romans 1:1, "Paul, a servant of
Jesus Christ" Dr. Barre spoke of the
incentive entering into the life of
St. Paul which caused him to change
his whole conception of his work in
life and to suffer and bear all things
for the sake of the truth which came
to him. And the incentive was not
that which offered material gain nor
any of the things for which men or
dinarily strive; it was the vision of
"how great things he must suffer for
my name's sake," the reward was in
the consciousness of a work well
done and a trust faithfully kept. So
in our lives, the ideal life is the life
of service. Service to God consists
largely in service to our fellowmen.
The duty we owe to God in worship
and praise, rightfully fulfilled, leads
us into the ordinary walks of every
day life as servants of God in carry
ing the spirit of brotherhood and
fairness into all our personal, social
and business affairs. Every man is
entitled to a fair recompense for his
labor of body and brain, a fair mar
gin of profit for his invested capital
of money or energy, but the incen
tive for his effort, if he would right
ly discharge his obligation to God
and man, must be to contribute to
the welfare of humanity by his work,
unselfishly and willingly. Men can
gain this view point only by such a
vision as St. Paul had; a vision of
the unselfishness of Jesus Christ,
who laid down his life in the service
of humanity. In God's revelation
through Him we see God as the lov
ing Heavenly Father and all men as
brothers in a common family, re
gardless of race, color or condition,
owing to each other a decent con
sideration for each other's welfare.
Stripped of its non-essentials service
to God means just this, and through
personal consecration and the de
velopment of the spiritual life we
gain the strength and the power to
be real servants of Jesus Christ.

The services are increasing in at
tendance and interest nightly, last
night's congregation being the larg
est thus far. They are proving in
teresting and helpful, and a cordial
invitation is extended to others to
come and participate in the singing
of the old fashioned hymns and share
in the fellowship of these Mission
services. The subject tonight will be
"A Soldier's Vision and a Bishop's
Awakening."
Dr. Barre, always an eloquent and
forceful speaker is delivering some
of the finest discourses that local
audiences have ever had the oppor
tunity of hearing.

TWO ARE BITTEN OTHERS ATTACKED BY VICIOUS DOG

**Suspect Animal Was Suffer
ing From Rabies And
Head Sent to Columbus
For Examination.**

**One Child's Face Badly
Lacerated — Many Dogs
Believed Bitten.**

A great deal of excitement was cre
ated in this city late Wednesday fore
noon when it was learned that a dog
supposed to be suffering from the rab
ies and which had bitten two children
and attacked others, was running at
large about the city. The excitement
did not subside until shortly after
noon when it was learned that the sup
posedly rabid animal had been killed
near the ice factory about noon, af
ter it had endeavored to attack people
in that vicinity.

Billie, the four year old son of Mr.
and Mrs. Jack Stone, was bitten in a
most shocking manner, the brute
knocking the lad from his tricycle
in front of the home of his grandpar
ents, Mr. and Mrs. Will Bishop, on E.
Paint street, about 10:30 Wednesday
morning, and biting the little fellow
three times in the face, inflicting
wounds which are expected to leave
scars for life.

The dog previously had been seen
near the B. & O. station where it at
tacked F. O. Cliné, of the Fayette
County Bank, and while it gripped his
leg, did not succeed in breaking the
flesh.

Monday evening a dog presumably
the same animal, attacked and bit
Paul Hays, nine year old son of Mr.
and Mrs. Frank Hays, of East Tem
ple street, so that it is believed that
the animal had been running at large
or a couple of days, and probably had
bitten a dozen dogs in the city.

Both children bitten will be given
ordinary treatment until it is ascer
tained whether or not the dog was
mad, and if such is found to be the
case, the pasteur treatment will be
administered to each.

Whether the dog bit others in the
city has not yet been learned.

Dr. Harry Roberts, local veterinar
ian, removed the animal's head and
it was shipped to Columbus Wednes
day afternoon for examination by the
state officials, and a report on it is
expected Thursday, or not later than
Friday.

The dog was not tagged and it is
not known who the owner was.

KEEP DOGS UP

Chief of Police Moore has
issued strict orders that all
dogs must be kept up for
the present, and if the dog is found to
have been hydrophobic, then orders
will be issued to muzzle all dogs or
they will be shot on sight.

OHIO STOCK WINS IN FAR WEST

That the pedigreed Duroc purchas
ed by Dr. M. S. Creamer of Los An
geles, California, at the recent H. K.
Stewart estate sale, at Spring Hill
Farm, crossed the continent and ar
rived safely in California is evident
from the following article in The Los
Angeles Sunday Times. "The Ireland
Ranch at Owensmouth has just received
by Wells Fargo Express, a con
signment of hogs purchased in the
sales rings of Ohio. A spring boar,
racing back to Joe Orion Second, and
the sow, Willetta J., on his sire's side
with Orion Cherry King and High
Lady on the dam's side, they plan to
cross with their glits sired by Cherry
Volunteer Second, Grand Champion of
the Riverside Fair in 1918. Two sows
daughters of Pals Perfection, with in
tensive King of Cole's breeding, are
bred to Joe Orion Cherry King Fourth
for March litters.

These litters, say the San Fernando
Valley ranchers, may be a factor in
the futurity herds of next Septem
ber."

Dr. Creamer has met with marked
success and a growing reputation in
the swine world of California in his
purchase and successful breeding of
fine Ohio stock. His high class hogs
have taken numerous show premiums
among them many first at Liberty
Fair, Los Angeles, and at Riverside,
California. Dr. Creamer's success pos
sesses considerable interest for his
numerous relatives and friends in this
city. He purchased top notchers from
the Stewart herd when back from the
West visiting at the home of his aunt,
Mrs. W. E. Ireland, and his wife's par
ents, Dr. and Mrs. J. P. Dennis, a cou
ple of years ago, and others have since
been shipped to the "Ireland Ranch."

CLASSES START WITH ENTHUSIASM

Tuesday was the first day the
Young Men's Christian Association
gymnasium was turned over to the
women and women's classes in line
with the new Woman's Auxiliary
movement, which has been started as
a basis for a long hoped for Young
Woman's Christian Association. There
were both afternoon and evening class
es under the direction of competent
"Y" Physical Director Keister, and the
greatest enthusiasm and interest on
the part of those attending. There
were twenty-five girls in the gym class
which formed at seven o'clock in the
evening and after an hour's training
on the gym floor the girls adjourned
to the pool for a short swim. In the
afternoon at four o'clock the High
School girls met for their class. Both
classes felt the exhilaration and benefit
of the physical training and had a jol
ly good time in the bargain. Even
those taking gym work for the first
time got along well and everyone was
delighted with the instructor.

Two days each week will be given
entirely to women, Tuesdays and
Thursdays, and the opportunity is now
open for the forming of a large num
ber of classes. If the new movement
is to succeed women must get togeth
er and make it go at the start. Money
is needed to carry on the work and
it is asked that memberships be paid
at once. Women and girls of both
town and county are asked to enroll
at the earliest opportunity, to pay
their memberships at once and to
start in, both for any desired class
work and to lend a boosting hand.

The men of the "Y" management
say that they are willing to do any
thing they possibly can to establish
the Young Woman's Association, to
make it a success and a community
center for all kinds of women's ac
tivities, but they must be shown that
women want such an organization, and
are willing to give their support and
effort to its founding.

FARM NOTES

Silage Causing Trouble
Occasional reports of the sickness
or poisoning of cattle that have been
feeding on silage indicate a greater
need for care both in the making and
handling of silage, says Dr. L. P.
Beechey of the Agricultural College
Extension Service. Silage put up too
green develop high acidity and causes
digestive disturbances. If silage is
mouldy it should never be fed to the
horses and if fed to cattle close watch
should be kept for any unfavorable
symptoms.
No more silage than is cleaned up
at one meal should be fed. Portions
left over should be discarded.
In feeding silage attention should
be given to the bowels. Irregularity
may be avoided by the use of bran
and oil meal.

Smut Prevention Pays
Reports indicate that more men
are treating seed oats for smut pre
vention than ever before. One reason
is that it pays, says Prof. W. G. Stov
er of the Ohio State University. Last
year in Clermont County seed treated
resulted in a probable saving of two
bushels per acre, in Auglaize county
three bushels, in Crawford county
four bushels, while in Shelby county
the yield is estimated to have been
increased five bushels to the acre. In
Williams county seed treatment gave
added profits of \$4,500 on 3,500 acres
of oats. The cost of treatment runs
from two to three cents per acre.
Another reason is that the dry for

The Spring Rush For Ford Cars

The rush of Ford buyers always comes with the first warm days of spring and then the real scarcity of Ford Cars begins. That has been our experience in past years and we see nothing now to indicate a changed situation this year. In fact, a waiting list for Ford buyers, as in other years, seems certain. Deliveries are coming promptly from the Ford factory now. Therefore today is the time to get your Ford car.

A Ford Sedan or a Coupe is the ideal woman's car. Note the many women drivers you meet on the road. For the busy man a 5 passenger Touring Car or a nifty Runabout saves time and money. Avoid the risk of delayed deliveries—order today.

IMPERIAL STAFF MAY MAKE TRIP TO BALTIMORE

Capt. H. D. Chaffin, Who is Soon to be Grand Master Of Odd Fellows in Ohio, Plans Notable Trip to Sovereign Grand Lodge.

If present plans of Capt. H. D. Chaffin, of Imperial Degree Staff, of Temple Lodge, No. 227, I. O. O. F., are consummated the widely known Imperial Degree Staff of this city will make a trip to Baltimore to the Sovereign Grand Lodge meeting, this year, and take part in the drills and work before the greatest meeting of Odd Fellows held in recent years.

For the past year or two Imperial Staff has done little or no outside work, but the splendid organization has been held together, and just as soon as some of the main characters in the team are back from military service, rehearsals will be taken up and preparation made, it is planned for the trip to Baltimore, and if the team goes to Baltimore it will, in all probability, charter a special train for the trip.

Capt. Chaffin, who last December was elected Grand Master of the state of Ohio—the highest honor that can be conferred by the lodge in Ohio, and will be formally installed at the head of Ohio Odd Fellows at the Grand Lodge meeting in Springfield the second week in June.

Capt. Chaffin is the second member of Temple Lodge who has been accorded the high honors, Chas. Pavey being the former Grand Master.

However, Capt. Chaffin is the first man who was ever elected Grand Warden without opposition, and then elected Grand Master without opposition.

With the Grand Master of Ohio as captain of a noted degree staff, the organization should attract widespread attention in Baltimore if the trip is made as planned.

PEACE TREATY NEARLY READY FOR THE HUNS

Total Indemnities Said to Have Been Cut Down to 35 to 40 Billion Dollars

No Changes Will be Allowed Germans, Who Will be Asked to Sign

London, March 12.—(By Associated Press)—Premier Lloyd George and Foreign Secretary Balfour have sent word to their colleagues here that the peace conference has nearly completed its work. The Evening News says. The draft of the peace treaty has already been finished and will be signed before the end of March.

When the Germans are summoned to Paris, The News adds, the treaty will be read to them and they will be invited to sign it. There will be no discussions with a view to alterations of the principal articles of the treaty. If it is thought necessary, questions involving the adjustment of details will be referred to a special commission.

The personnel of the German fleet is to be restricted to 15,000, the supreme council has decided. The military conditions to be imposed on Ger-

many include guarantees that no tanks will be built and no more poison gas manufactured and that all German war material must be handed over and destroyed. It is added that allied commissions will supervise the carrying out of these conditions.

The covenant of the league of nations does not figure as a part of the peace treaty but will be treated separately, although the treaty makes frequent references to the league which are to be entrusted to the league.

In estimating the losses of all the great powers aggregated 1,000,000,000 francs and those of another power were slightly above 500,000,000 francs, namely 500,000,000 francs. These first estimates have gradually been reduced until the present aggregate covering the losses for all countries is about one-fifth of the first highest estimate and in final form probably will be in the neighborhood of \$35,000,000,000 or \$40,000,000,000.

The final figure has not yet been written into the committee report but has been left in blank and expressed as "X" so that an insert may be made when there is an understanding as to the formal decision on the amount to be exacted.

The American member of the supreme council, it is understood, permitted the military experts to exercise their judgment regarding the proper size and character of the future German army.

RED PROPAGANDA AMONG MEXICANS

Mexico City, March 1.—(By Associated Press)—Bolshevik literature is being distributed among Mexican laborers and labor leaders, it is said, are spreading the gospel by word of mouth. These propagandists, according to reports, base their arguments on literature that is being brought in to Mexico from the United States by a Bolshevik agent, who is either Russian or Austrian.

According to the Excelsior, the propaganda is being carried on secretly, but actively, and that within a short time the results will show. Several industrial disputes, the paper adds, were inspired by the Bolsheviks. Recent reports from Vera Cruz say that two Bolshevik agents had landed there.

Labor troubles in Tampico during the last year of the world war were blamed on I. W. W. agents instigated by Germans. The principal union labor organizations of the country, the Confederation de Sindicatos Obreros del Distrito Federal, officially denies any Bolshevik affiliations or sympathies.

DISEASE TAKES HEAVY TOLL IN LITTLE SERBIA

30 Percent of Population of 5,000,000 Souls Die Since War Opened

New York, March 12.—(By Associated Press)—Serbia was described today as both an economic and physical ruin by Dr. Louis I. Dublin, a statistician of New York, just returned from a thorough survey of Italy, Serbia, Greece and Jugo-Slavia for the American Red Cross.

Dr. Dublin declares that in every one of the countries ravaged by the enemy the number of deaths from disease in the civilian population far outnumbered the war casualties. As an example of this, he mentioned Italy, where, he said, nearly 800,000 civilians died from influenza.

Serbia has suffered worst of all, he said, and he estimated that it would take 15 to 20 years to restore her to her normal conditions.

"The epidemic of typhus fever in 1915," he continued, "caused 150,000 deaths and removed more than 100 of the country's physicians. In Belgrade alone in 1917 tuberculosis removed more than 1½ per cent of the population and it is safe to estimate that 10 per cent of the civilian population died each year during the occupation period. In a nation of 5,000,000 a loss of 30 per cent in the total population is a serious matter, but it is worse when it is considered that of the remaining 3,500,000 practically 75 per cent are in a subnormal condition from starvation, suffering and disease."

"The Bulgarians, immediately after their occupation of Serbia, segregated the best specimens of Serbian manhood, womanhood and childhood and drove them out of Serbia into Bulgaria, where they worked them mercilessly. They worked women and their children on the road. They paid them barely a pittance, not enough to live on. In my trip through Serbia I encountered thousands of them coming back and they were just emaciated rags. The eyes of many children showed trachoma. In most instances the returning Serbians walked along the roadsides exhausted, sleeping until they found strength enough to go on again, living on crusts of black bread and perhaps a little goat's milk which they could get now and then."

they are welcomed is putting it mild by indeed.

The pictures are not shown indiscriminately. When a picture from New York, or Kansas City, or Seattle, or anywhere else, arrives it is sent immediately to the military organizations hailing from that particular locality and it only needs a simple announcement to the effect that a home town movie will be shown to pack the Young Men's Christian Association hut or theatre to the limit as many times as it is possible to show the film before taps blow.

Some days ago in Coblenz, while a picture from Chicago was being shown a soldier rose from his seat and shouted "There's my dog," and after a pause he added, "and that's my brother with him."

Many a boy over here has seen some of his relatives in these pictures, and they are more successful than the latest humorous film or the newest drama.

SAYS LEADERS WILL COMBINE

Berlin, February 16.—(Correspondence of the Associated Press)—Discussing the silence of Field Marshal von Hindenburg in the face of persistent attacks on General Ludendorff and the suspicion that he will throw the quartermaster general overboard, the Tages Zeitung declares it is informed that the contrary is the case and that Marshal von Hindenburg will stand by General Ludendorff and all the other men who were associated with him in the conduct of the war for Germany.

"In agreement with the Field Marshal," the Tages Zeitung adds, "there is now being prepared a memorandum which will set forth all pertinent facts, and illuminate the charges made against General Ludendorff. Delay in the publication of this document, however, suggests that certain influences are at work to prevent its issuance."

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

WETS DEMAND REFERENDUM ON DRY ACTION

'Home Rule' Association Back of Petition For Referendum in Ohio

Columbus, O., March 12.—Petitions filed with Secretary of State Harry C. Smith Tuesday, asking for a statewide referendum on the Legislature's resolution ratifying the national prohibition amendment, contain 197,847 signatures, almost four times as many are required by law.
The petitions were filed by L. H. Gibson, manager of the Ohio Home Rule Association.
It was predicted that the number of signers will be increased to 225,000 before the last petition shall have been filed. In 85 of the 88 counties, more than the necessary three per cent already have been obtained, and Mr. Gibson said all of the counties will have exceeded the required per cent when petitions, now en route to his office, are filed.
The per cent of signatures in the large majority of counties, if not all of them, will exceed 6 per cent, he added.
Cuyahoga County leads the list of signers with 49,857, followed by Hamilton County with 32,927, Montgomery with 12,525, Franklin with 11,928 and Lucas with 11,747. The remainder was divided fairly equally among the 83 other counties in proportion to population.
Twenty-nine Ohioans are included in casualties announced for Wednesday, and the total number of casualties for the day reaches 232, divided with 139 major and 193 minor casualties.

ROLL OF HONOR

The major casualties are divided: Died of wounds 6; died of accident and other causes 14; died of disease 68; wounded severely 35; killed in action 13; missing in action 3.
The minor casualties are divided: Wounded degree undetermined 47; wounded slightly 56.
Total number of casualties to date, including those reported above: Killed in action (including 381 at sea) 31,757; died of wounds 13,255; died of disease 20,634; died of accident and other causes 3,132; wounded in action (over 85 per cent returned to duty) 190,723; missing in action (not including prisoners released and returned to duty) 6,083; total 265,584.
The total number of deaths reported in the expeditionary forces has reached 63,778.

ROLL OF HONOR

Johnny Kilbane, featherweight champion of the world, returns to the ring March 19, after a year and a half of voluntary retirement. Kilbane will meet Frankie Brown in Philadelphia on that date. The return of the champion to competition is expected to stimulate interest in the featherweight division which waned quickly following Kilbane's knockout at the hands of light weight champion Bonny Leonard.

STOP WORK ON BIG WAR PLANT

(By Associated Press)
Washington, March 12.—Abandonment of the Neville Island ordnance plant, planned as the largest munitions factory in the world, was announced by the war department. Not only will construction be stopped at once, but the buildings already completed will be dismantled and the tools and machinery manufactured or nearing completion will be transferred to other government arsenals or sold. The island itself, in the Ohio River near Pittsburgh, will be turned back to the original owners.
The estimates called for an expenditure of more than \$150,000,000, the entire plant being designed to cover 573 acres and to employ 20,000 men when in full operation. It was to surpass in size and capacity both the Krupp works in Germany and the Creusot factories in France.
The rapidly with which work on the plant was rushed was evidenced by the statement that 165 14-inch cannon produced there would have been on the battle front by May, 1920. There was no information, however as to the amount of money already spent.

37TH DIVISION BEGINS SAILING

Cincinnati, Ohio, March 12.—(By Associated Press)—Definite sailing date of the Thirty-seventh or Buckeye Division from France came in a cablegram from Lieutenant Colonel I. H. Dube to his wife here.
The message read that the first contingent of the division would sail from Brest today. The cablegram also announced Dube's promotion from major to his present rank in consequence of his conduct during the battle of the Argonne while fighting with the One Hundred and Forty-seventh Infantry, commanded by Colonel Fred Galbraith

YANKS ARE BACK FROM HUNLAND

Coblenz, February 15. — (Correspondence of the Associated Press)—How it feels to be exhibited in Germany will be told when Joseph Brown and Charles Knowlton, both of the 165th Infantry, get back to New York where they lived before the war.
Both have rejoined their regiment after imprisonment in Germany since May 5 when a patrol they were in went in search of Germans who were needed for information they might give. The patrol got the Germans but the German army got Brown and Knowlton and until a few days ago the 165th Infantry knew nothing more about them. Both had come through the German lines after the armistice.

Is Your Blood Poor? If it is, You Need Vinol

Anaemic, run-down, nervous, devitalized conditions result from poor or thin blood. A glance at the formula of Vinol, printed on the label, will show that it contains the very ingredients necessary to make good blood. It soon creates a healthy appetite, improves digestion, and helps you to get full benefit from your daily food, and builds you up.

Drewsville, N. H.
"My daughter was anaemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol helped my son, I gave it to my daughter—she soon improved in health, and it has built her up and restored her health."—Mrs. N. Burnell.

Bradford, Pa.
"I have used Vinol for impoverished blood. I was broken out with a rash. I run down so it was hard for me to keep about my work. Other medicines did no good, but Vinol enriched my blood and improved my condition very rapidly."—Rose Lasky.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.
